PARTICIPANTS NEEDED FOR RESEARCH STUDY ON FALL RISK

We are conducting a study to better understand the associations between physical activity and fall risk in those with Parkinson's disease. Participation in this study is entirely voluntary. All responses will be confidential.

You May Qualify if You

- ❖ Are older than 18 years of age
- ❖ Have Parkinson's disease (PD)
- ❖ Can read English
- ❖ Have access to a desktop/laptop computer, tablet, or smart phone with internet connection

❖ Incentive/Compensation

- ❖ Your responses will help advance knowledge about physical activity and falls in those with PD.

Participation Involves

- ❖ Completion of 6 questionnaires for up to 3 hours. Questionnaires involve:
 - ❖ Recall about exercise habits
 - ❖ Recall about symptoms, including falling, related to having PD

Location

- ❖ At your home or wherever you complete it electronically
- ❖ Scheduled at your own convenience
